

## PROFESSIONAL PROFILE

Leon

Leon has been a qualified PGA Professional for over 15 years. Leon's golf career began at the age of 17, after his earlier years were spent as a javelin thrower for the "British Under 21 National Squad". In 1989 he moved to Portugal, where for 3 years he played all over Europe as an amateur, winning over 20 events, such as The Volvo Amateur Masters, Calsberg Open, Peugeot Classic, Algarve Open and BMW International Cup. He returned to the UK playing competitively to handicap of +2 and became fully PGA qualified in 1996. Leon furthered his playing career from 1997 to 2001 by playing on both The Challenge Tour and the main European Tour. As one of the tours longest drivers, he also became involved in many "long driving exhibitions". His experience

has given him the opportunity to have played with many of the most respected golfers in the world. In 2001 he took on his first Club Professional position at Sheerness Golf Club, operating a successful retail outlet, as well as teaching golfers of all levels.

Leon's journey within the golf industry has led him to become one of the most accomplished teaching instructors in the Country, and although he has become well established within the field of long driving, he specializes in teaching all areas of the game from complete beginners to other PGA professionals.

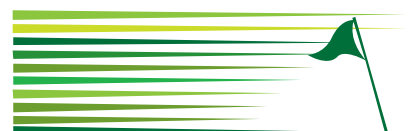

Leon will ensure you have an enjoyable and rewarding experience when having tuition from a former European Tour Professional.
